Progress and Attainment at Key Stage 2

Differentiation between pupils' attainment has been created using a 'scaled score' measure by converting from raw scores in the SATs to a score between 80 and 120, with a score of 100 being the average for the year group.

Children who achieve a score of 100 or more are working 'At the Expected Standard' - with children achieving a scaled score of 110 or more considered to be 'Working at Greater Depth' - and children who score 99 or less being 'Not at Expected Standard'.

The DfE has published a document explaining the system in more detail which can be found via the link below:
